SUMMARY

Product & Technology Executive with 25+ years leading enterprise product organizations, portfolio governance, and operating-model transformation across banking, lending, and financial services.

Proven track record establishing product organizations, governance frameworks, portfolio-management disciplines, roadmap practices, and delivery standards that align business strategy, technology investment, and execution. Built and scaled global product and technology organizations, coached product leaders, modernized operating models, and transformed fragmented delivery environments into disciplined, measurable product organizations.

Experience spans JPMorgan Chase, Kind Lending, loanDepot, Washington Mutual, Wells Fargo, Bank of America, Microsoft, and consulting leadership roles. Recognized for connecting executive strategy to delivery execution while driving measurable business outcomes in highly regulated environments.

EXPERIENCE

SVP, Product & Platform

FinTech lender, \$1B+/month wholesale/retail originations, 150+ person tech org

Kind Lending

Jun 2025 - Jan 2026

- Established enterprise product governance and delivery operating models for a \$1B+/month lender, replacing fragmented intake channels with a unified prioritization framework that improved roadmap visibility and reduced release churn >25%.
- Built and scaled the technology organization while implementing Agile product-management practices, delivery standards, and executive governance processes.
- Partnered with executive leadership to align product strategy, technology investment, AI initiatives, and operational priorities.
- Implemented AI-enabled workflow automation that reduced requirements turnaround from days or weeks to hours.
- Assumed ownership of QA and delivery operations, improving release predictability and achieving 100% timeline adherence.

VP Product & Technology – Property Vertical

Systemically important bank, \$1.2T+ first-mortgage AUM, 15 direct + 50+ dotted reports

JPMorgan Chase

May 2018 - Jun 2025

- Owned product and technology strategy for a multi-billion-dollar mortgage platform segment supporting enterprise lending operations.
- Scaled global product and engineering organizations from 40 to 65+ professionals across the U.S., India, and the Philippines.
- Established portfolio governance processes that transformed an unmanaged backlog of approximately 8,000 requests into a prioritized enterprise investment portfolio aligned to strategic business objectives.
- Partnered with executive leadership on portfolio strategy, investment prioritization, roadmap governance, and technology modernization initiatives.
- Conceived and delivered a production appraisal-decisioning platform that improved accuracy by 10%, reduced manual review by 30%, and generated more than \$2 million in annual savings.
- Directed delivery of a Home Equity platform replacement in nine months versus an industry norm exceeding eighteen months.
- Served as executive owner for regulatory remediation initiatives and enterprise Agile transformation efforts.

Director, Product Management

Digital lending platform, mello ecosystem (2M+ retail eSignings)

loanDepot

Jul 2016 - Dec 2017

- Owned product strategy and delivery for key components of the mello™ digital lending ecosystem serving consumers, loan officers, and operations teams.
- Led product initiatives supporting enterprise regulatory transformation under TRID while enabling significant growth in distributed retail origination.
- Directed major platform modernization initiatives, including migration of a document-management ecosystem supporting more than two million electronic signing transactions.
- Partnered across product, technology, compliance, operations, and executive leadership to align platform investments with business strategy and customer experience objectives.
- Established governance and delivery practices supporting multiple concurrent platform initiatives within a rapidly scaling lending organization.

Director, Program Management

M&A technology integration, consumer retail mortgage

imortgage (Division of loanDepot)

Jun 2014 - Jun 2016

- Led enterprise integration and transformation efforts following the acquisition of imortgage by loanDepot.
- Directed full loan-origination-system conversion across 120 branches in nine months versus an industry norm exceeding eighteen months.
- Designed and implemented operating processes spanning origination, servicing, secondary marketing, accounting, and reconciliation functions.
- Coordinated product, technology, operations, and business stakeholders to maintain uninterrupted customer and employee experience throughout the conversion.
- Established governance structures and execution frameworks that enabled large-scale organizational and platform change while maintaining business continuity.

Earlier Career

WASHINGTON MUTUAL

Led enterprise credit-decisioning and analytics platforms, including deployment of the \$18MM Enterprise Decision Engine supporting \$205B+ in annual origination volume.

WELLS FARGO / WACHOVIA

Directed treasury technology and operations integration supporting an \$8.8B merger and conversion of 600+ commercial banking relationships.

BANK OF AMERICA

Led regulatory remediation initiatives supporting FHA/HAMP compliance requirements.

MICROSOFT

Developed enterprise delivery methodologies and portfolio-governance approaches adopted across Services Delivery Worldwide.

NORTH HIGHLAND

Led strategic transformation engagements across banking, lending, entertainment, and enterprise technology organizations.
